

Kimberly Simmons

PHOTOGRAPHER | SPEAKER | CONNECTOR

Kimberly Simmons is a Toronto photographer, speaker and creative connector, and the creator of the Medusa Project, the first stage of her Strong Women History project, which is changing the narrative of women's stories and the histories we don't know.

Since picking up a camera in 2016 to photograph her son, she has been published by four Toronto Business Improvement Areas, exhibited at Gallery 1313, Northern Contemporary and Trieste Photo Days, and photographed fashion, architecture and community events across the city.

She speaks about women's untold histories, building a creative practice as a mom, and how creatives and local businesses grow stronger together.

> "Changing the narrative of women's stories, and the histories that we do not know."
